

Student Team Weekly Report - One Page Template

PROJECT/FEATURE

System Project Selection & Team Planning.

TEAM & MENTOR

Team: 2
Mentor: Mr. Mahesh Kandekar

WEEK TEAM/LEADER

25th August 2026
Week Leader: Dnyaneshwari T.

WORK COMPLETED

Divided the team into groups for Frontend, Backend, Testing, and Documentation. Discussed module-wise responsibilities and started development and documentation for the Medical Store Management System.

CHALLENGES/RISKS

Understanding the coordination between Frontend and Backend modules and ensuring proper database connectivity. Maintaining consistency between different modules and avoiding errors during integration.

HELP NEEDED

None as present

INTEGRATION AND COLLABORATION

Discussed module requirements and dependencies among all team members. Coordinated the Frontend, Backend, Testing, and Documentation groups to ensure smooth development and integration.

COMMON KPI EVIDENCES

Team responsibilities were successfully divided into four groups. Initial Frontend and Backend development, testing activities, and project documentation were started.

NEXT WEEK COMMITMENTS

Project lead for next week: Diksha R. Continue development of the remaining modules and integrate the Frontend, Backend, and Database components. Begin systematic testing of completed modules.

MENTOR RESPONSE

Continue module development with proper database connectivity and integration. Ensure regular testing and documentation of the completed work.
